OBJECTIVE

Data Analyst and B.Tech Artificial Intelligence & Data Science student. Passionate about transforming complex datasets into actionable insights through robust statistical analysis and clear visualization. Eager to leverage technical proficiency in SQL, Python, and Excel to solve real-world business challenges and optimize data-driven decision-making within a professional team environment.

EDUCATION

Kathir College of Engineering Coimbatore, India
B.Tech in Artificial Intelligence & Data Science (Pursuing)

TECHNICAL SKILLS

Languages & Libraries: Python, Pandas, NumPy, SQL
Data & Analytics: Data Analysis, Data Visualization, MS Excel (Advanced Formulas, Pivot Tables), Statistical Modeling
Cloud & Tools: Amazon Web Services (AWS), Google Colab, Git / GitHub
Core Concepts: Machine Learning Fundamentals, Web Development (HTML5, CSS3, JavaScript)

INTERNSHIP EXPERIENCE

Brainary Spot Technology Dec 2025
Data Analytics Intern

- Analyzed large-scale retail datasets using Excel and SQL to extract performance metrics and actionable trends.
- Designed and launched interactive analytical dashboards, successfully accelerating leadership reporting efficiency by 25%.
- Identified key operational anomalies and patterns, contributing directly to data-backed strategy optimizations.

Smart Yugam Academic Data Analytics May 19 - June 12
Data Analytics Intern

- Processed and evaluated complex institutional and domain-specific datasets to identify critical trends and performance indicators.
- Applied robust descriptive statistical methods and data cleaning workflows to transform raw academic data into structured, high-quality analytical formats.
- Generated comprehensive data summaries and clear visualizations supporting data-driven institutional reporting requirements.

Boredom Technologies LLP June 2025
AI-Powered App Intern

- Built and delivered high-performance AI-based web application Minimum Viable Products (MVPs).
- Integrated specialized generative AI endpoints and automated routine front-end workflows, boosting developer velocity by 30%.
- Recognized as an Outstanding Performer for exceptional engineering standards and active project contributions.

CodSoft Technologies July 2025
Web Development Intern

- Engineered 5+ dynamic, responsive web interfaces using HTML, CSS, and modern JavaScript practices.
- Resolved cross-browser compatibility flaws and refined UI/UX layouts, reducing frontend visual layout errors by 40%.

PROJECTS

India COVID-19 State-wise Analysis (Data Analytics)

Python, Pandas, Matplotlib, Seaborn

- Conducted an in-depth exploratory data analysis (EDA) on nationwide COVID-19 pandemic datasets across various Indian states.
- Developed granular, comparative visualizations tracking active cases, recovery velocities, and mortality indices across specific region boundaries.
- Cleaned, filtered, and aggregated volatile public health statistics to construct an analytical baseline for regional impact mapping.

Brain Tumor Classification using CNN

Python, TensorFlow, Google Colab

- Developed and fine-tuned deep learning Convolutional Neural Network (CNN) models to classify medical MRI brain images.
- Achieved strong diagnostic accuracy metrics, demonstrating high viability for computer-aided clinical assistance.

Data Analytics Student Performance Analysis

MS Excel, Advanced Formulas

- Conducted comprehensive descriptive analysis on institutional student datasets to track multi-semester performance trends.
- Utilized complex nested lookup formulas, conditional logic formatting, and dynamic, interactive charts to seamlessly summarize academic success factors.

Health System Management Platform

AWS Infrastructure

- Built and deployed a resilient cloud-integrated clinical platform utilizing AWS hosting, ensuring 99.9% uptime capability for administration workflows.
- Optimized resource provisioning to facilitate flexible database scaling, patient scheduling, and secure data storage solutions.

Electronic Health Record (EHR) System

Next.js, JavaScript

- Designed a high-throughput storage and rapid retrieval architecture customized specifically for patient medical histories.
- Secured sensitive medical records while significantly optimizing clinic data workflows and reducing latency in patient profile rendering.

CERTIFICATIONS

- Outstanding Performer - Boredom Technologies LLP
- Virtual Internship - NASSCOM FutureSkills Prime & SmartBridge (Jan-Mar 2026)
- Hack-Forge Hackathon Participant (Mar 2025)
- Infosys Springboard & FutureSkills Prime Course Certifications
- Web Development Professional Certification - CodSoft
- Data Analytics Graduate Certification - Brainary Spot Technology
- Ignite Bootcamp - Wadhvani Foundation

PERSONAL PROFILE

Father's Name:	M. Manoj Kumar
Mother's Name:	M. Anitha
Date of Birth:	14.06.2006
Languages Known:	Tamil, English

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
